Passage:

Comprehension

Erosion of America's Farm land by wind and water has been a problem since settlers first put the prairies and grasslands under the plough in the nineteenth century. By the 1930's, more than 282 million acres of farmland were damaged by erosion. After forty years of conservation efforts, soil erosion has accelerated due to new demands placed on the land by heavy crop production. In the years ahead, soil erosion and pollution problems it causes one likely to replace petroleum scarcity as the nations most critical natural resource problem.

Itemcode : **MJ1011**

Q58 As we understand from the reading, today, soil erosion in America

:

- (a) Causes humans to place new demands on the land
